

Report Discusses Noise Problem If Jets Come To Homer

How noisy would an international jet airport in Homer Township be?

A special report on the subject to the Homer Township Board points out that it is not necessary to wait until such an airport is in operation to supply an answer.

From the many technical studies on aircraft noise, the preface to the report explains, the noise level can be accurately estimated.

In brief it states that the noise from a fully loaded turbojet will interfere with speech, concentration and sleep up to 15 miles from the airport site. At locations

close to the site, the authors of the report state, the noise will be almost unbearable.

The report was prepared by Frank J. Lynch, of Lockport, a physicist at Argonne National Laboratory, and James Clarage, Homer Twp., an architect and chairman of the Will County Building Board of Review, as private citizens.

"The sound power produced by a jet aircraft is about 100,000 watts," the report states. "This is about 10,000 times the average sound power of a 75-piece band, 100,000,000 times that of a loud shout and 100-trillion times that of a very soft whisper. Since the advent

of jet aircraft and the great expansion of air travel, aircraft noise has become a matter of increasing public concern.

"Many studies of aircraft noise and its effects have been made for the Federal Aviation Agency, the National Aeronautics and Space Administration, the United States Air Force, the New York Port Authority, and other agencies. From these studies it is possible to accurately estimate the noise levels that would be experienced in the vicinity of a jet airport.

"Acoustic engineers customarily express the effective sound pressure level

(SPL) in decibels (db). This is a logarithmic scale, adopted for convenience in calculation. In this scale, 0 db is the threshold of hearing. Every increase of 10 db corresponds to a tenfold increase in sound intensity....

"From studies of human evaluation of noise, a formula has been developed for converting the physical measurement of SPL in each octave band of the sound spectrum into a perceived noise level expressed in PNdb. . . Both in this country and abroad, it has become widely accepted as the means of describing aircraft noise.

"The noise levels can be related to levels that will interfere with speech communication. For example: A jet noise level on 80 PNdb will interfere with the understanding of speech spoken at normal voice level from a distance of three feet. A noise level of 100 PNdb will interfere with speech communication at three feet even when the

"In a typical building, noise from an aircraft will be lessened about 20 db with the windows and doors partly open, and about 30 db with them closed. For undisturbed sleep it is recommended that the noise level be kept below PNdb. This means that the outside noise should be below 65 PNdb if the windows are partly open, or below 75 PNdb if they are closed.

"In the classroom it is recommended that the noise level be below 50 PNdb. This requires that the outside noise be below 70 PNdb with the windows open, or below 80 PNdb with the windows closed."

A graph of "noise contours" taken from a technical report prepared for the Federal Aviation Agency is included with the report by Lynch and Clarage and used by them in preparation of a map of the area around the proposed Homer airport. There are

fully loaded jet," the report explains, "at some point on the circle the noise level will register the perceived noise level labeled on the circle. The area where noise level higher than 90 PNdb can be encountered is inhabited by about 360,000 people. Within the 105 PNdb circle are located some 45,000 people. Within the 115 PNdb circle are about 7,600 people. The boundaries of the proposed airport encompass the property of about 1,300 Homer Township residents."

Lemont and Lockport are located on the 110 PNdb circle. Mokena, New Lenox, Westhaven and Orland Park are on the 105 PNdb circle. Palos Park, Frankfort and Joliet are on the 100 PNdb circle. Tinley Park and Oak Forest are between the 100 and 95 PNdb circles. Plainfield, Woodridge, Hickory Hills are on the 95 PNdb circle, and the 90 PNdb circle touches such communities as Naperville, Lisle, Downers Grove, Hinsdale and LaGrange.

Sandburg Grid Team Blasts Lincoln-Way -- Braves Next Foe

Bremen Braves will host the Eagles of Carl Sandburg High School Saturday, Oct. 21, in games at 12 and 2 p.m.

The Braves in compiling an early 3-0-1 conference record, scored 79 points, compared to the Eagles 78 in their first 3 wins.

But the Eagles pulled far away in the statistical race by smashing Lincoln-Way last Friday night 51-0 at Sandburg. Sandburg's sophomore team also shutout the young Knights 34-0 in the prelim.

The first quarter ended with only Mike Navarro's one-yard paydirt plunge on the board, and Sandburg leading 6-0.

Quarter two was something else. The Eagles ripped for 27 points, to lead at halftime 33-0. Pepper Pettit passed to Craig Aronson for 4 yards and a TD. Tom Devine's kick made it 13-0. Three minutes later, Navarro turned the corner on an end run and sprinted 23 yards for a 19-0 lead.

The Knights were held on downs when Bob Werner tackled their quarterback. Taking over on the 47, Pettit sent Jim Donnelly off tackle with a handoff and the speedy junior pranced 53 yards untouched to make it 25-0. Devine's second kick was good.

Seconds later, Terry Thompson picked off an L-W pass and raced back to the 38. Pettit threw the bomb and Mike Snodgrass made a juggling circus catch on a

TD play covering 38 yards. Devine's kick was good.

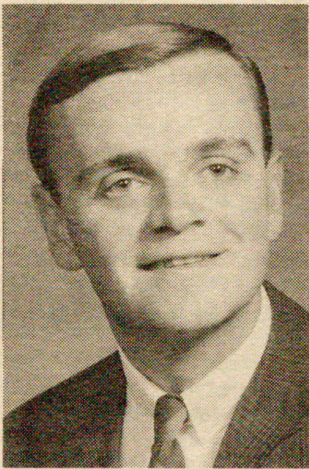

Eagle substitutes played like Green Bay subs much of the second half. "Doc" McGhee climaxed a sustained drive by plunging over from 6 yards out with 3 minutes left in the third quarter.

Another land drive, half the length of the field, culminated with Jerry Lucas scoring from the 1. McGhee's kick was off and the Eagles' lead early in the fourth period was 45-0.

Eagle substitutes more than held their own most of the final period. With four minutes left, the varsity began a final drive from the 45. It stalled at the 30 when Pettit's pass to Skip Voscanellos was complete but caught out of bounds.

Four futile plays later, Donnelly returned the Knights' punt 18 yards to the 47. Pettit ran for 7. Donnelly burst off tackle, in a repeat of the previous perfectly executed blocking, and ran 40 yards for the final TD. McGhee's kick was off, but 51 was enough.

Sandburg made 18 first downs as compared to three for Lincoln-Way and in the course of the game piled up 357 yards on the ground and 99 by passing. The Knights were held to 91 yards rushing and six yards thru passing. Lincoln-Way lost the ball once on a fumble but the Eagles made no errors. Penalties were about even, 35 yards against Sandburg and

NEWLY ELECTED President of the Lincoln-Way Teachers Association, is James Reeves, a junior high teacher at the Arbory Hills School, Mokena.

The Association, which consists of over 350 teachers from seven districts, deals with the interests, opinions and needs of the classroom teacher, and placing the students welfare as an ultimate goal.

Tricks Or Treats

Tricks and treats will be restricted to one night Halloween itself, Oct. 31 -- in most communities in the area. At Frankfort Chief of Police T. A. Massey has set the hours for this annual custom of putting the bite on householders for candy, cookies or fruit from 4:30 until 8 p.m.

40 against Lincoln-Way.

This was the fourth win in the Southwest Suburban Conference for the Eagles and no losses. Their overall record for the year is 5-0.

The Knights, still seeking their first conference win will play Homewood-Flossmoor this Saturday, on the Vikings' field.

Frankfort Voters OK 21-Cent School Tax Hike

An increase in the Educational Fund tax rate for the Frankfort grade school district, No. 157-C, was finally approved last Saturday.

Beaten at two previous referendums this year, enough district voters changed their minds Saturday for the proposal to carry by 13 votes, 167 to 154.

While the board of education is gratified to have the tax increase approved members had hoped for a larger turnout of votes. The number voting last Saturday, 321, is about the same as cast ballots in the previous elections.

The Educational Fund tax rate now 90 cents per \$100 equalized assessed valuation will advance to \$1.11 but the new rate will not be reflected in the tax bills until 1969, according to the board.

School administrators and board members have been pointing out that the Frankfort district has not had the revenue to meet present dry costs of salaries and supplies. To save money the school has dispensed with the intramural sports, summer band, choral music and television education. The ban on these programs will continue thru the current school year, according to Supt. Lerou M. Olson but will be restored in the 1968-69 school year.

Salaries, of course, are the major item in the operation of a school system and Frankfort has been fortunate, a board spokesman said, to have been able to retain its qualified teachers. There is considerable competition among districts for

teachers -- and that takes money, it was pointed out.

More than 1,000 voters turned out in the school referendum at Plainfield last Saturday and gave substantial majorities to two proposals affecting their pocketbooks. They approved an \$800,000 bond issue for additions and remodeling and also voted in a 40-cent increase in the Educational Fund tax. Plainfield is a consolidated district that operates high and grade schools and can vote on a larger increase. The rate jumped from \$1.85 to \$2.25 per \$100 valuation.

Starting at 8:15 p.m. until 10:00 p.m. there will be music by a combo and soft drinks to quench your thirst. Remember the box lunch auction from 7:00 p.m. until 8:00 p.m. and the sock hop from 8:15 p.m. until 10:00 p.m.

The proceeds from this dance will be used in the further beautification of Arbury Hills. As an added inducement, there will be the awarding of a week end for two to the Pheasant Run resort in St. Charles.

If you have not been contacted about tickets for the affair, please call either Gordon Brosmore at 479-9329 or Herman Veltman at 479-5242.

The annual poster contest held at the school in conjunction with the Fun Fair is under the directorship of Mr. Reaves, the eighth grade teacher. The two winning posters will be displayed at the Fun Fair. First place

was won by Bobby Maschmeyer and second place was won by Danny Derlinsky. Congratulations, boys.

Seems as though there are many, many sweet tooths, if I may, at the school. On the first taffy apple day there were over eight hundred taffy apples available for the children, and everyone was sold. The homeowners on Beechnut Drive especially owe a vote of thanks to Mrs. Searles for her thoughtfulness in providing a trash container at the curb on taffy apple day for the children to deposit the wrappers.

A small reminder to the mothers and children that the second hot dog day will be held at the school next Tuesday, October 23. Don't forget to place your orders today.

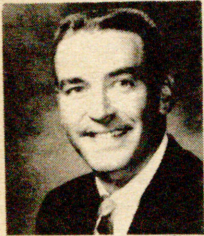

The Brownie Scout Troop Number 334 has now had its leadership approved and will be as follows for this year: Mrs. Charlene Camp as leader and Mrs. Catherine Erick and Mrs. Peggy Hurd as co-leaders.

Parents, please drum into your children's heads that fire fighting is to be left to those who are competent to handle it. Call the fire department in case of fire; do NOT try to put it out without the proper personnel and equipment.

Adults, do NOT burn trash and garbage in the fields. The garbage service will, in almost every case pick up the additional trash as part of the weekly pick-up. Do not endanger our children, who are, as children will be, fascinated by fire.

Interior Design Corner ...

WHY CALL IN A DECORATOR?

This may best be answered with another question. Why do we need accountants, engineers, insurance specialists or hair stylists, to name a few?

The average family makes sizable investments in furniture every five to nine years. It is impossible to become proficient in decorating at this pace. Simply stated, a professional point of view is essential.

A decorator must not only know how to handle color but must also know fabrics, scale and balance. In short, a decorator's job is to interpret YOUR tastes and requirements while being careful not to impose his or her own.

For instance, let's consider two homes structurally alike in every detail. One is occupied by a middle aged couple whose children have grown up, married and moved away. The other is the home of a young family with four children of teenage and under. These two homes will certainly present two completely different problems and approaches.

An alert decorator must also devote attention to the budget you have established for the work to be done.

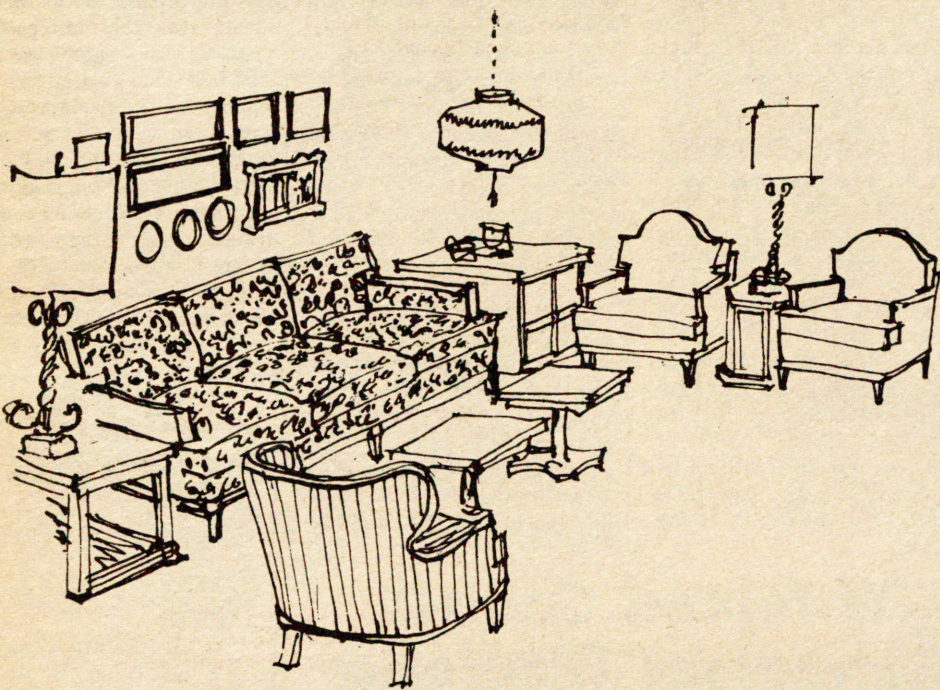

When you visit with us we will first discuss your problems and desires. We then study your room plan, knowing the function the room must perform. With these facts we are able to develop a scheme tailored for your family.

We will also assist you in the selection of paint, tile, wood stains and all other items used. Our interest is in your satisfaction, needless to say; happy customers are the greatest asset of any business.

McLemore Resigns Village Post; Name Topp To Board

James McLemore, a member of the Frankfort Village Board resigned from that body at its regular meeting Monday night. Appointed to serve out his term was John Topp, a former member of the board who declined to seek re-election last spring.

Trustee McLemore, who has been superintendent of maintenance at the Superior Match Co. since it was put in operation at Frankfort, has also resigned from that firm to become superintendent of the Daniel E. McDaniels Co., Chicago Heights, which deals with the installation of automatic sprinkler systems.

McLemore was chairman of the sewer and water committee on the village board, a post held by Topp for many years before he retired.

Mr. and Mrs. McLemore will move to Chicago Heights to make their home Nov. 1. His resignation from the village board was effective at the close of the meeting Monday night.

Topp was not present but before McLemore's intentions were made public Topp was approached with the suggestion that he return to public life. He finally consented and Mayor Glenn Warning suggested his appointment following McLemore's statement of resignation. The board was unanimous in its approval.

Topp has served on the village board for many years

and conversant with its problems. He is especially acquainted with the water and sewer systems.

The village received a letter from the state relative to requests for changes in the speed limit on state aid streets. The state has consented to lowering the speed limit on Nebraska St. to 25 miles an hour on that portion now under a 30 m.p.h. limit.

However, the state declines to make any revision in the 35 m.p.h. portion of Nebraska St. or to lower the 50 mile limit on U.S. 45 north of Colorado St. The state will post new signs on that part of Nebraska St. where the speed limit has been reduced to 25 m.p.h. and will erect a "side road" sign on U.S. 45 at Colorado Av. The state complains that a "Welcome to Frankfort" sign near the junction of Colorado Av. and U.S. 45 (which is not on state right of way) prevents a motorist traveling east on Colorado from seeing a stop sign. Mayor Warning takes exception to this charge. He says he has approached U.S. 45 on Colorado Av. many times and has always been able to see the stop sign.

Village Clerk Walter Pfaff is to get some help. He asked the board Monday night if it would be willing to pay a secretary for some 10 hours work a month in typing out the waterbills. He has been paying for this service out

of his own pocket, he said. He pointed out that he had to post all the charges and set up the amounts to be typed on the bills. If he tried to type out the bills himself, he said, it took too long because he is interrupted by other demands on his time for many other services.

Following the regular meeting a committee made up of Mayor Warning and Trustees Robert Dean, Lynn Kohlhausen and Jerry Osmus decided that it would be a good thing to employ someone on a part time basis who was able to type and could also be instructed in the duties of the office of village collector, which Pfaff also fills, so in the event he should be ill or go on vacation there would be someone available to keep the office open. Any person, male or female, interested may get in touch with Mayor Warning.

By formal vote of the board Monday a policy was adopted concerning the use of village police outside the municipal limits. Village officers are instructed not to respond to any calls outside the village unless asked to do so by county or state police.

The board instructed the village treasurer to invest \$12,000 of the \$13,000 in the depreciation and contingency fund (set up thru collection of sewer and water charges) in certificates of deposit so the fund can be earning some money.

Initial Teaching Alphabet Brought To Orland Schools

On Monday evening, Oct. 9, a number of parents of children in the first grade I.T.A. room at Orland Park Elementary School met to learn the methods used in teaching reading by means of the Initial Teaching Alphabet, Miss Diane Bender, teacher of the I.T.A. first grade, explained that in the Initial Teaching Alphabet there are forty-four symbols, one which represents each sound instead of the twenty-six symbols as are present in our traditional alphabet.

After students learn the I.T.A. symbols they have the ability to read any word which they see if it is written in the I.T.A. Their knowledge of the I.T.A. symbols also allows the students to write in I.T.A. any word which they say. Thus first grade I.T.A. students are

able to use many words which students using the traditional alphabet are normally unable to use until they reach the intermediate grades.

Miss Bender further explained that the Initial Teaching Alphabet originated in England in 1960. After extensive testing in Britain it was brought to the United States and has been

growing in use since coming to this country.

This years class is the third group of students to go through the I.T.A. program. The school officials are very satisfied with the program at this time as test results have shown that the students from the I.T.A. classes have made substantial growth.

Supt. Tyler also recently attended the fall conference of the Illinois Association of School Administrators held at Southern Illinois University at Carbondale.

Just about the time when Joliet *Federal* was issued its charter (in 1934) - the passbook savings account started becoming popular. Prior to this, savers were required to save specified amounts on specified dates - and were rewarded or penalized according to how well they saved.

Today Joliet *Federal's* modern, streamlined passbook savings account enables you to save whatever amount you want - whenever you want - and to withdraw all or part of your savings as you choose. It is flexible and practical, and if you don't have a passbook savings account at Joliet *Federal*, now - right now - is the time to start one!

A great idea yesteryear . . . a better idea today!

Frankfort

Methodist Congregation To Hear Bishop At Service

MRS. KATHERINE HEISNER
Telephone: 469-5187

Bishop Thomas Pryor of Chicago, and the Rock River Conference of The Methodist Churches, will preach at the Frankfort Methodist Church Sunday evening, Oct. 29, at 7:30 p.m. He will speak on the theme, "A Time for Decision." This will be the first time that a bishop of the Methodist Church has ever been to Frankfort for a special preaching service; and the church extends an invitation to all in the area around Frankfort to attend the service Sunday evening.

On Wednesday evening, Nov. 1 Dr. Hughes Morris, pastor of the Elmhurst Methodist Church, will speak on the same general theme at 8 p.m. Dr. Morris formerly was the pastor of the Arlington Heights Methodist Church, in the Rock River Conference. He is also the father of Reverend Hughes Morris, Jr., who was the pastor of the Mokena Methodist Church several years ago.

The climax to this spe-

cial preaching mission at the Frankfort Methodist Church is the celebration of the sacrament of Holy Communion at 8 p.m. Friday evening, Nov. 3.

On Sunday, Oct. 22, Reverend Kepler, will dedicate the new hymnals which have been purchased for use in the church sanctuary. These hymnals have been received as gifts from individuals and families of the church as memorials and special presentation gifts to the church this year. The hymnals, the official hymnal of The Methodist Church, was copyrighted in 1964 and first released for use in congregations throughout Methodism a year ago in 1966. Among the new hymns included in this hymnal is the beloved "How Great Thou Art", which was introduced to so many by Mr. George Beverly Shea, a member of the Billy Graham Crusade Team. Also included are a number of the older hymns, such as "The Old Rugged Cross," which were not included in the hymnal which the church had

been using.

Rev. Charles L. Kepler, recently attended a three-day seminar at George Williams College Camp, Williams Bay, Wis. The seminar was sponsored by the Board of Evangelism of the Rock River Conference of The Methodist Church. Dr. Ira Gallaway, District Superintendent of the Forth Worth East District of The Methodist Church, and Dr. Colin Williams, a member of the faculty of the Divinity School at the University of Chicago, were the lecturers. Bishop Thomas Pryor, resident bishop of the Rock River Conference, delivered the last address of the seminar.

Kenneth Oetter of the Frankfort Bobzin Post 1098 is the Judge Advocate of the 2nd, Division Dept. of Illinois, the Golden 50 Caravan, the name of the major membership program of the American Legion.

Second Division Commander Mr. Jasper Trump of Manhattan is in charge of the Golden 50 Caravan.

The evening of Nov. 14 has

been designated at "Veterans nite" at the Veterans building. A great treat is in store for the people of Frankfort. The Jeanne Clair Band of Hollywood, one of the last of the "Big Bands" will be on hand to play for the dance and put on an hour-floor show. The hall will be set up in a nite club atmosphere and any one wishing to attend for a most enjoyable evening may obtain tickets from any legionaire.

It will be the Policy of the Frankfort Legion to call upon and present a gift to all young men and ladies of Frankfort Township, who leave for induction into our armed forces.

Don't forget the teen-age dances every Friday nite and the big New years eve party. Fish Fry every Friday at the hall from 5:30 to 8:00 p.m.

Regular legion meetings-1st & 3rd Thursdays at 8:00 p.m.

"What governs you?"

Chance? Heredity? Statistical probabilities? This doesn't have to be so. James Spencer, C.S., a member of The Christian Science Board of Lectureship, says that "Spiritual law properly recognized, applied, and obeyed corrects the uncertainties and stresses and strains in our lives."

How to bring this spiritual law into your experience will be discussed by Mr. Spencer in his public lecture, "What Governs You?"

children, Mr. and Mrs. Robert Teske and children, Mr. and Mrs. John Funk and children, and daughters Shirley and Carol.

The couple received many lovely gifts.

Hernandez-Badten Vows Read Sept. 9

Chapel 10 at Fort Devens, Mass. Army Base provided the setting for the marriage of Pvt. Ronald L. Badten and Miss Kathleen Hernandez, Sept. 9, at 9 a.m., with Chaplain Robert L. Pearson officiating.

Miss Hernandez is the daughter of Mr. and Mrs. Arthur Hernandez, 2N266 Prairie Avenue, Glen Ellyn while Pvt. Badten is the son of Mr. and Mrs. Louis Badten of rural Mokena.

Attendants were Pvt. John Abbot, Moline and Pvt. Craig Phillips, Muskegon, Mich. of the Army base.

Following the service the newlyweds spent the weekend at Cape Cod, Mass.

Pvt. Badten enlisted in the Army Feb. 19, 1967 and is now enrolled in Army Security Schooling with graduation services set for Nov. 24. Following a furlough he will then be assigned to overseas duty. Before entering the service he attended the University of Illinois, Illinois State University at Normal and is a 1963 graduate of Lincoln-Way high school.

The new Mrs. Badten is a senior at University of Illinois.

Newscaster Addresses Dist. 230 Institute

Floyd Kalber, television newscaster from Chicago, spoke to area grade and high school teachers gathered at Stagg High School for a fall institute day, Oct. 13.

He said that three problems keep television news and documentary shows from taking on the full responsibility already assumed by the best of print journalism.

The "equal time" requirement hampers TV in its political coverage. It was waived for the Kennedy-Nixon debates in 1960, but had Johnson-Goldwater debates been scheduled in 1964, Kalber said, ten other minor party presidential candidates would have to have been given equal time according to section 3.15 of the Communications Act, enforced by the Federal Com-

munications Commission.

Controversial reporting on television is limited by a "fairness doctrine" in which FCC clerks can contest news and documentary content. The perils of possible censorship by partisan governmental employees are apparent, he said.

The third area exists when cameras and microphones are prohibited on the floors of Congress, committee hearings, courts, legislative chambers, and other places where the public's business is transacted. In fact, he said, it was only six years ago that TV won the fight to film meetings of the Chicago City Council. The members can still vote before each meeting whether or not to allow electronic journalists in.

Instant Nonfat Dry Milk Is Now Graded

If you want a package of instant nonfat dry milk that assures you of quality and wholesomeness, select one that carries the "U.S. Extra Grade" shield on its label.

Mrs. Bea Bagby, Will County Extension Adviser, says this new grade marking means the product is high in quality, is safe and wholesome and has been processed and packaged in sanitary plants. In addition, the graded milk must have a sweet and pleasing flavor and a natural color, and it must live up to the description "instant" in dissolving when mixed with water.

A USDA grader, who is on hand at all times where the milk is processed and packaged, makes sure that it is free from harmful bac-

teria and that it meets other exacting laboratory tests for grade requirements.

The plant where the milk is produced must also be federally inspected and approved. This procedure involves a thoro checking on more than 100 items involving the plant, the milk supply, equipment, operating procedures and packaging. Even the label must be approved -- there can be no misleading or conflicting statements on it.

And, Mrs. Bagby adds, nutritionally speaking, instant nonfat dry milk is every bit as good as fresh skim milk. Only the water is removed in the processing so that the high - quality protein, calcium and riboflavin that milk is noted for are still there.

Providence Mothers Club Plans Fiesta

Susan Lindemer and Virginia Comerford, home economists of the NI-Gas Co. gave a demonstration last night on the preparation and serving of holiday foods in the school cafeteria of Providence High School.

The program was given in conjunction with the regular monthly meeting of the Providence Mothers Club.

On the evening's menu was a party appetizer, ham on grill, chicken casserole, carrot bread and a dessert.

Mrs. Robert Rock, president of the club, discussed plans for the "Harvest Festival" the Mothers are planning for Nov. 17-18 at the school.

Contractor Injured When Car Hits Tree

Nick Skiniotis, 43, of 351 Francis Rd., New Lenox, is listed as being in fair condition at Silver Cross Hospital as a result of injuries suffered when the car he was driving went into a ditch and struck a tree.

Skiniotis was driving east, about 1 1/4 miles out of Joliet early Sunday morning, when rounding a curve, he encountered another car that had been in an earlier accident.

Robert Aron, 25, 150 Hickory Rd., also of New Lenox, had lost control of his car a few minutes before and gone off the road, striking a tree, police said. Aron was treated at Silver Cross and released.

WANT-AD WONDERS

WANT AD INSTITUTES ONE-MAN WAR

ON WEST GERMAN LUFTWAFFE

Helmut Winter won his one
man war against the West
German Luftwaffe and
forced their noisy jets to
keep a higher altitude above
his Bavarian home by firing
dumplings at them. After a
year of sleepless nights, he
published a Want Ad asking
for "ordnance for aircraft
defense" and got many of-
fers, including a 3-inch
cannon. He rejected modern
weaponry, however, and
made a replica of a Roman
ballista and used dumplings
as missiles, which made a
dull splat when they hit
target. During the "peace
talk" with Luftwaffe pilots,
Mr. Winter served them
dumplings.

HONEST MAN'S

WANT AD

IMPRESSES POLICE

After having no luck at the
Miami Beach Police Dept.
in trying to trace a car
he'd backed into, Edward
Kaytes placed this Want
Ad:

"Owner who parked
car in lot 1631 Euclid
Ave., Fri. Feb. 25. If I
caused damage con-
tact me. Ed Kaytes."

The owner of the damaged
car showed up, but de-
clined to discuss the mat-
ter further. Said Sgt. Fred
Bizet of the police ac-
cident bureau: "He's a rare
guy, an honest man. I
never saw anything like
it."
